

Round bench ARENA with steel strip feet and BC Backrest

Round bench ARENA with feet made of square steel tube and BC backrest

Round benches
Bench tops

Round bench ARENA

Round bench elements on steel frames or concrete feet. Steel frame either made of round tube, square tube, or steel strip, hot-dip galvanized, and optionally powder-coated. Concrete feet made of face concrete, chamfered on all sides. Also available as bench top without frame. Standard elements available in ten radii or as a straight bench. Other radii on request. Version without or with inner or outer backrest. Backrest available in two versions BC or PS. Wood slats milled conically, 45 mm thickness.

Support structure (either for embedding in concrete or for dowel mounting)
 Round tube, Ø 100 mm, galvanized
 Square tube, galvanized
 Steel strip stringers, galvanized
 Concrete feet
